Title:	A selection procedure using the Bootstrap algorithm for multiple regression models
Paper:	(Dec 05, 12:16 GMT)
Author keywords:	Bootstrap economic data multiple regression variable selection
EasyChair keyphrases:	multiple regression (454), multiple regression model (301), multiple regression coefficient (206), error variance (120), regression model (115), bootstrap algorithm (90), synthesis data (50), bootstrap method (40), statistical value (40), error distribution (40)
Abstract:	Multiple regression is a mathematical model that is applied in various fields to model the relationship between dependent variables with several independent variables. If multiple regression is used to model data, the number of independent variables is often set. Errors are often assumed to be a normal distribution. But in applications, the number of independent variables and the error distributions are often unknown. This study proposes a multiple regression model in which the number of independent variables is unknown and errors are assumed to be arbitrary distributions. The Bootstrap algorithm is proposed to estimate the number of independent variables, multiple regression coefficients, and error variances. The performance of the Bootstrap algorithm is tested by simulation. The simulation results show that the Bootstrap algorithm can estimate the number of independent variables, multiple regression coefficients, and error variances well. Furthermore, multiple regression is applied to model economic data.

Additional Evaluation and Additional Comments:

The paper indicates satisfactory control of written English across sections. Only a few mistakes are evident, which do not interfere the communication. Only minor revisions are required with respect to sentence structure, subject-verb agreement, coherence, and punctuation. Also, few parts need more revision on sentence effectiveness

Paper Title : A selection procedure using the Bootstrap algorithm for multiple regression models

Thank you for participating in the Second International Conference of Combinatorics, Graph Theory and Network Topology 2018. I am very grateful to say that the conference has been successfully held. Following your paper which you have submitted to the ICCGANT 2018 and also based on the review result of your paper, I am pleased to inform you that your paper is potentially to be published in the **Journal of Physics: Conference Series (JPCS), IOP Publishing (Indexed by Scopus)**. However, you need to revise your manuscript as follows:

1. Please kindly revise your paper based on the feedback given by the reviewers as attached in the email.
2. Please follow the guideline of **JPCS manuscript template,** see ic.cgant.unej.ac.id or see the JOP website: http://iopscience.iop.org/journal/1742-6596 to help you to organize your paper.
3. The revised paper together with source files, .doc or .pdf and other relevant files, should be **compressed into one file** with the following name: AUTHORNAME_ICCGANT2018_PAPERID. It should be resubmitted to the committee by no longer than January 20th by emailing the organizing committee iccgant@gmail.com and cc to alfarisi38@gmail.com and rafiantikap@gmail.com
4. Please kindly make a payment for the IOP publication fee. Each paper will be charged USD 120 for international author or IDR 1.500.000 for Indonesian author. Payment shall be made before January 20th, 2018 to the following details.

   Bank name: BNI SYARIAH JEMBER
   Account name: Panitia ICCGANT 2018
   Account number: 0749239210
   Address: BNI Syariah Cabang Jember, Jember, Indonesia
   (For international transfer, the SWIFT Code is SYNIIDJ1)

   Should you have any problem or enquiry, please do not hesitate to contact us.
5. After making payment, please notify us by sending the payment record to the organizing committee by above email or whatsapp to +6285746045070 (Rosanita Nisviasari).
6. Disclaimer: Please understand that the payment will be allocated for the IOP payment either review processor publication fee. Please do your best to meet the IOP publication standard, since rejection from IOP *will not make your money back*.

Dear Authors,

ICCGANT 2018 committee would like to thank you for your contribution to the successful conference in CGANT-University of Jember.
The publication committee would like to inform you the result of reviewing processes as follows:

1. We are glad to inform you that your paper has been selected to be included in the Journal of Physics: Conference Series (JPCS),
IOP Publishing (Indexed by Scopus).

2. However, you still need to revise the paper according to the reviewer comments (as attached).

3. Authors shall adhere to publisher's publication requirements, including, but not limited to, length of papers and format.
Please prepare your revised paper according to the guidelines on the attached template.

4. The committee has provided its best efforts to assist the publication process at Scopus-indexed publication.
