HALAMAN PENGESAHAN ......................................................................................... ii

KATA PENGANTAR ................................................................................................. iii

DAFTAR GAMBAR .................................................................................................... v

DAFTAR TABEL .......................................................................................................... viii

DAFTAR ISI ................................................................................................................. x

BAB I PENDAHULUAN ............................................................................................. 1

A. Latar Belakang Masalah ....................................................................................... 1

B. Identifikasi Masalah ............................................................................................. 3

C. Batasan Masalah .................................................................................................. 3

D. Rumusan Masalah ................................................................................................ 3

E. Tujuan Tugas Proyek ........................................................................................... 4

F. Manfaat Manajemen Tugas Proyek .................................................................... 4

G. Metode Pengumpulan Data .................................................................................. 5

BAB II PERSIAPAN PROYEK .................................................................................. 7

A. Personal yang Terlibat ......................................................................................... 7
B. Proses Didapatkannya Proyek..............................................................8
C. Biaya Awal............................................................................................9
D. Proposal (Terlampir)............................................................................11
E. MoU (Terlampir)...................................................................................11

BAB III GAMBARAN PARTNER.................................................................12
A. Gambaran Umum..................................................................................12
B. Tujuan Pemesanan Web Profil Sekolah dan PSB.........................15
C. Gambaran Unit yang Terlibat dengan Sistem yang Dibangun........16
D. Gambaran Umum Aplikasi.................................................................16

BAB IV PELAKSANAAN PROYEK............................................................17
A. PembagianTugas...................................................................................17
B. Tools yang digunakan...........................................................................19
C. Manajemen Kerja Proyek.................................................................22
D. Analisis Sistem....................................................................................27
E. ERD......................................................................................................53
F. Mapping Table....................................................................................54
G. Struktur Table....................................................................................55
H. Rencana Waktu Pelaksanaan Awal.......................................................50
I. Waktu Pelaksanaan Proyek.................................................................58
J. Tempat Pelaksanaan...........................................................................59

BAB V DOKUMENTASI PROYEK..............................................................61
A. Desain User Interface........................................................................61
B. Pengimplementasian Desain............................................................76
C. Notulensi Rapat..................................................................................109
D. Biaya..................................................................................................112
E. Waktu Pelaksanaan..........................................................................114
F. Anggaran Tenaga Pelaksana............................................................124
G. Evaluasi............................................................................................127

BAB VI PENUTUP.......................................................................................128
A. Kesimpulan......................................................................................128
B. Saran...............................................................................................128
