Coverage 2009-ongoing

Scope Journal of Advanced Research in Dynamical and Control Systems is a multidisciplinary journal. It publishes papers focusing on proofs of important theorems as well as papers presenting new ideas and new theory, conjectures, numerical algorithms and physical experiments in areas related to nonlinear dynamics and systems theory. Papers that deal with theoretical aspects of nonlinear dynamics and/or systems theory should contain significant mathematical results with an indication of their possible applications. Papers that emphasize applications should contain new mathematical models of real world phenomena and/or description of engineering problems. They should include rigorous analysis of data used and results obtained. Papers that integrate and interrelate ideas and methods of nonlinear dynamics and systems theory will be particularly welcomed.

B **Brijesh Goswami** 4 days ago

dear sir/mam

i have published a paper in JARDCS in 2019 but not showing in scopus database. kindly help in this regard
thanks

reply

Melanie Ortiz 4 days ago

SCImago Team

Dear Brijesh,

thank you very much for your comment, unfortunately we cannot help you with your request. We suggest you to contact directly with Scopus support:

https://service.elsevier.com/app/answers/detail/a_id/14883/kw/scimago/supporthub/scopus/

Best Regards, SCImago Team

P **PRATIK GHOSH** 2 weeks ago

Dear Scopus team,

I have a research paper recently accepted for publishing on 1st February 2020 in JARDCS which will be published in March /April 2020.

The journal at present is indexed in scopus. Will the journal still continue in SCOPUS as my university mandates research papers to be published in scopus indexed journal which gets eventually updated in the scopus database.

Please guide should the journal continue to be in SCOPUS in March / April as it requires publication processing fee?

reply

Welcome to JARDCS

Journal of Advanced Research in Dynamical and Control Systems presents peer-reviewed survey and original research articles.

ISSN: 1943-023X

[Know More \(about.php\)](#)

Journal of Advanced Research in Dynamical and Control Systems - JARDCS

Journal of Advanced Research in Dynamical and Control Systems examines the entire spectrum of issues related to dynamical systems, focusing on the theory of smooth dynamical systems with analyses of measure-theoretical, topological, and bifurcational aspects. It covers all essential branches of the theory--local, semi local, and global--including the theory of foliations.

The journal also features in-depth papers devoted to control systems research that spotlight the geometric control theory, which unifies Lie-algebraic and differential-geometric methods of investigation in control and optimization, and ultimately relates to the general theory of dynamical systems.

Journal of Advanced Research in Dynamical and Control Systems presents peer-reviewed survey and original research articles. Accessible to a broad range of scholars, each survey paper contains all necessary definitions and explanations, a complete over-view of the problem discussed, and a description of its importance and relationship to basic research on the subject.

This publication also features authoritative contributions describing ongoing investigations and innovative solutions to unsolved problems as well as detailed reviews of newly published books relevant to future studies in the field.

💡 News & Events

Acceptance will be provided only from the official mail of the journal, acceptance from other sources are not valid.

From 2019, JARDCS will invite special issue papers only through conferences. There will not be any direct special issue submissions other than conference special issue.

Call for Research Articles

JARDCS invites researchers, scholars and authors to submit their original and extended research
