Dear Nanik Sulistyani  
Thank you for your corrected article. I checked your corrections, and I am satisfied.

There is only one problem. You need to add microscopic scale to each picture

I am sending you example of how it should look like.

How to do it: if you have microscopic slide with micrometer, you can take the photography with microscope camera at the same conditions as your samples and consequently redraw the scale in graphical program and add it to each of your pictures.

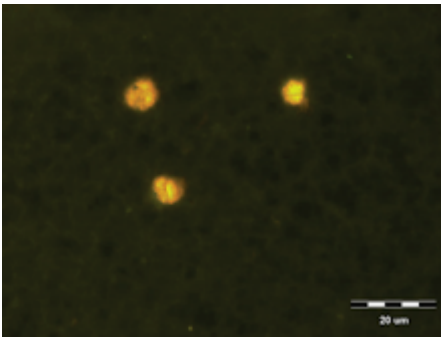

You can send me your figures again with your article.

Best regards  
Peter Zajac  
Editor-In-Chief.
