Research article ○ Abstract only

Germination potential of baldcypress (*Taxodium distichum*) swamp soil seed bank along geographical gradients

Ting Lei, Beth Middleton

Article 143484

[↓ Purchase PDF](#) Article preview [∨](#)

Review article Abstract only

Pushing microbial desalination cells towards field application: Prevailing challenges, potential mitigation strategies, and future prospects

Mohd Nur Ikhmal Salehmin, Swee Su Lim, Ibdal Satar, Wan Ramli Wan Daud

Article 143485

[Purchase PDF](#) Article preview 

Research article Abstract only

Highly efficient capture of uranium from seawater by layered double hydroxide composite with benzamidoxime

Hui Wang, Huiqin Yao, Lihong Chen, Zihuan Yu, ... Shulan Ma

Article 143483

[Purchase PDF](#) Article preview 

Research article Abstract only

A commonly available and easily assembled device for extraction of bio/non-degradable microplastics from soil by flotation in NaBr solution

Chengtao Li, Qian Cui, Min Zhang, Rolf D. Vogt, Xueqiang Lu

Article 143482

[Purchase PDF](#) Article preview 

Research article Abstract only

Remarkable promotion in particle dispersion and electron transfer capacity of sulfidated nano zerovalent iron by coating alginate polymer

Dan Li, Yin Zhong, Heli Wang, Weilin Huang, Ping'an Peng

Article 143481

[Purchase PDF](#) Article preview 

Research article Abstract only

Application of multi-parameter population model based on endogenous population biomarkers and flow volume in wastewater epidemiology

Chenzhi Hou, Tingting Chu, Mengyi Chen, Zhendong Hua, ... Bin Di

Article 143480
