Dear editorial team,

Please allow me to give you a suggestion. I saw your journal on scimagojr, and yes, you are in Q3 and Q4. However, when I looked at your profile "about" menu. On editorial board, there is no information about the detail like affiliation and country. I think it will better if you are completing this information.

**Subject:** Re: Ask APC in J UOEH

Dear Mrs. H Suzuki,

Thank you for your correction in my references. I was only put attention on the number with square bracket, and since I used Mendeley, I thought that everything was fine. Now, in the attached file, I rewrite manually referred to your guideline and like your example. Hope no reference is missing.

Please let me know if anything should I change.

Best regards,

Thank you for submitting your paper. I saw the manuscript. Please prepare the reference for JUOEH.

The reference is divided into the following three.

Not all have been fixed, but I wrote each example. Look at the guide and rewrite it.
