Thank you for the information about the payment and schedule of my article to be published. If I may make a request, I would like the article to be published in December 2022. This is important in relation to my academic career as a mathematics lecturer.

I have not arranged my rank for almost 20 years because of some administrative reasons despite the fact that the rank is generally promoted every two to four

years. Because of this the university has warned me. In fact, I have been an associate professor since 2005 and have participated in some research programs at the Department of Mathematics and Scientific Computing, Karl-Franzen University of Graz, Austria, in 2002/2003, 2004, 2005, and 2010.

Once again, I request that my article be published in this December issue.

I am very grateful for your understanding and help.

Kind regards

Julan Hernadi
