Dear Editor

I am writing to submit the manuscript entitled, "Who Owns the Broadcasting Television Network Business in Indonesia?"

In Indonesia, there are 671 private TV companies broadcasting free to air. Of these, some companies have many TV stations and build various broadcasting networks. From the data analysis, there are 14 substantial free to network broadcast private TV broadcasters but owns by eight companies.

The article is attractive and significant to publish as a study material for researchers, academics, practitioners, and readers of your journal, who interest in the television industry, especially Indonesia TV broadcasting business.

This manuscript describes original work and is not under consideration by any other journal. All authors approved the manuscript and this submission.

Thank you for receiving our manuscript and considering it for review. We look forward to your response

Dear Vlad,

I would like to purpose two questions relating the payment. How many dollars I should transfer. I have already submitted as the member of the SEA journal, a few weeks ago before I submitting the article. I think you can check in the database. Unfortunately, until now, I don't receive any confirmation of submission membership. Hence, how I know membership status? Please, inform me and make me clear, as soon as possible.  
Thank you very much

Dear Rendra Widyatama,

Thank you for the confirmation.

Are you sure you want to publish the material in the SEA? You already have an article in the current issue.

I also recommend the NIS journal (<http://nis.seaopenresearch.eu>). Among the authors are colleagues of yours who have published in this journal. If you look into the archive you will find them.

Dear Vlad,

Thank you very much for your advice. I will accept it to publish in NIS journal as your suggestion. I found Judit OLÁH, Mónika HARANGI–RAKOS, József POPP, Ahmed Salama articles in NIS Journal in the volume V (2017), issue 9 & 10. The most important thing is, the journal will be accepted by the institution. That's good.
