Reviewer B:

Abstract:

Abstract is proper length. Somewhat informative and understandable

Introduction:

Basic introduction that states topic but lacks interest. Paper is somewhat clear and arguable.

Quality of Research Method:

Information relates to the main topic, but few details and/or examples are given. Shows a limited variety of sources. References are not cited correctly

Results and Discussion:

Some connections made between evidence and paper. Shows some analysis.

Conclusion:

Lack of summary of topic.

Organization:

Somewhat clear and logical development with basic transitions between and within paragraphs.

Writing Quality and Adherence to Format Guidelines:

Paper shows an average and/or casual writing style, using standard English and following APA guidelines. Some errors in spelling, grammar, punctuation, usage, and/or formatting.

Originality:
Moderate

Comments:

This paper need to be revise by strenghtening the data collection method and analysis. There are lack of data analysis and discussion to justify the reseach objective scientifically. It is suggested the author to collaborate with other reseacher in order to strenghtening the research study.

This paper may only be accepted if the author made major revision to the research study and report writing.

Reviewer Decision:
Weak accepted
