Dear Martomo Setyawan:

I am writing regarding your manuscript entitled : "Lipid Removal of Microalgae using Hydrodynamic Cavitation Technique: Effect of cavitator geometries and pressure booster on yield and energy extraction" with ID: IJRED-2019-26773 which you submitted to the to International Journal of Renewable Energy Development.

Based on the Reviewer feedback as well as my own reading of your manuscript I want to strongly encourage you to undertake revisions and then resubmit your manuscript for consideration for publication in the International Journal of Renewable Energy Development.

I hope that this feedback will be helpful to you in developing your research, and that you will be encouraged to undertake the revisions within the next few weeks. Please don't hesitate to contact me if you have any questions about the comments above.

To submit a revision, go to <http://ejournal.undip.ac.id/index.php/ijred> and log in. You will be able to upload the revision and detailed response to reviewer comments.

When you submit a revised version of your paper, please include a statement explaining how this version reflects the feedback received from the Reviewers and the editors. Also, note if, and explain why, you decided not to follow any points made by Reviewers or editors.

Finally, we would appreciate it if you would acknowledge receipt of this message and, as soon as possible, let us know a) whether you plan to rewrite your paper as well as b) when you would plan to submit a new version to the International Journal of Renewable Energy Development for review.

Reviewer H:

Section

Remarks

Topic

- The topic should be revised to EFFECTS OF THE CAVITATOR GEOMETRIES AND PRESSURE BOOSTER ON YIELD AND ENERGY IN THE USE HYDRODYNAMIC CAVITATION FOR LIQUID EXTRACTION

Abstract

- The objective is not properly represented in the abstract in line with the topic, please rephrase it.

Introduction

- The section is satisfactory except for the last paragraph that requires revision
- The last paragraph presenting objective of the research was not clearly written, there is need to revise it for better clarity and better language flow.

Methodology

- You supposed to number all your mathematical equations and they needed to be well-formatted, please.

- Check the author's guideline for the proper formatting of the report.

Best regards
Martomo Setyawan

Reviewer E

The article requires following revisions to be acceptable for publication in IJRED:

1. The writing is poor, it requires revision and edition.
2. The novelty of the study is not clear. It must be clearly indicated in the last paragraph of introduction section.
3. Is there any reason for considering these shapes for cavitation? It should be expressed.
4. The accuracy of measurement tools and their important specifications must be added.
5. The uncertainty of the experiments is not indicated.
6. In fig.6, the trends of the data in different conditions must be discussed.

Dear Martomo Setyawan

I am pleased to confirm that your paper submitted to International Journal of Renewable Energy Development, entitled "Lipid Removal of Microalgae using Hydrodynamic Cavitation Technique: Effect of cavitator geometries and pressure booster on yield and energy extraction" ID: IJRED-2019-26773 has been accepted for publication.

We will proceed your manuscript to layout editor and send the proof to you for final correction. Please note that there will be no more revision allowed after this stage is reached.

The article processing cost (APC) must be paid by login to your account.

Thank you very much for submitting your article to the International Journal of Renewable Energy Development.

Sincerely,

Prof. Dr H Hadiyanto
