My Fabulous Sister

Hi Friends! Let me introduce my sister. Her name is Sophia and she is 24 years old. She is absolutely beautiful! The boys are very fond of her! She has got long black hair, blue eyes and a pretty little nose. Her eyelashes are extremely long. She has got very nice white teeth. She is about 176 cm tall and she weighs 56 kg. She is slim and she has got long legs, but her feet are quite small. She goes to university where she studies economics. Sophia is very clever that is why she gets a lot of money from various scholarships.

I can't mention any negative features about her. She is very kind, she pays attention to her friends (she has many!). She is usually cheerful and likes jokes a lot. My sister is very helpful. She helps me with my homework and always helps my parents around the house. In her free time she works as a model for a big and famous company. She often goes jogging to keep herself fit and healthy. My parents are very proud of her.

Borobudur Temple

Borobudur Temple is a 9th-century Mahayana Buddhist monument near Magelang, Central Java, Indonesia. The monument comprises six square platforms topped by three circular platforms, and is decorated with 2,672 relief panels and 504 Buddha statues. A main dome, located at the center of the top platform, is surrounded by 72 Buddha statues seated inside perforated stupa.'

The monument is both a shrine to the Lord Buddha and a place for Buddhist pilgrimage. The journey for pilgrims begins at the base of the monument and follows a path circumambulating the monument while ascending to the top through the three levels of Buddhist cosmology, namely Kāmadhātu (the world of desire), Rupadhatu (the world of forms) and Arupadhatu (the world of formlessness). During the journey the monument guides the pilgrims through a system of stairways and corridors with 1,460 narrative relief panels on the wall and the balustrades.

Evidence suggests Borobudur was abandoned following the 14th-century decline of Buddhist and Hindu kingdoms in Java, and the Javanese conversion to Islam. Worldwide knowledge of its existence was sparked in 1814 by Sir Thomas Stamford Raffles, then the British ruler of Java, who was advised of its location by native Indonesians.
