

Editorial Committee

THEME EDITORS

Professor Mateusz Barczewski
Poznan University of Technology

composites, polymer blends, nanocomposites, recycling

Professor Artur Bartkowiak
West Pomeranian University of Technology, Szczecin

bioimmobilization, innovative packaging materials

Professor Marek Bieliński
UTP University of Science and Technology, Bydgoszcz

technology of polymers materials

Professor Marek Bryjak

Wroclaw University of Science and Technology

bioimmobilization, innovative packaging materials

prof. Daniele Cangialosi

Centro de Fisica de Materiales, San Sebastian, Spain

dielectric relaxation spectroscopy and calorimetry techniques, especially of the problem of the glass transition in the bulk and under nanoscale confinement

Professor Danuta Ciechańska

Institute of Biopolymers and Chemical Fibres, Łódź

biopolymers, biodegradable fibrous materials

prof. Richaud Emmanuel

Arts et Métiers ParisTech, Paryż, Francja

polymers physico chemistry, degradation/ageing, radical chemistry

Professor Mirosława El Fray

West Pomeranian University of Technology, Szczecin

nanotechnology, biomaterials of polymer

Professor Teofil Jesionowski
Poznan University of Technology

chemistry and technology of silicon compounds

Professor Arkadiusz Kloziński
Poznan University of Technology

polymer composites, processing and rheological properties of polymers, extrusion, modification of structural polymers

Professor Stanisław Kuciel

Cracow University of Technology

biopolymers, biodegradable fibrous materials, recycling, hybrid composites

Professor Piotr Kuśtrowski
Jagiellonian University in Kraków

composite materials, hydrogel polymers, catalysis

Professor Mariusz Oleksy
Rzeszow University of Technology

rheology of polymers, processing of polymer materials, rapid prototyping

Professor Paweł Parzuchowski

Warsaw University of Technology

polymer chemistry, plastic recycling, renewable raw materials, biomedical materials
