ABSTRACT

Health science development is currently rapidly changing due to the Covid-19. Changes have taken place not only in terms of scientific development but also in terms of learning methods. Almost all learning methods have shifted into online learning, requiring students to be more active. This study aims to determine the level of SDLR among pharmacy students in Indonesia, especially during the pandemic. This study design was cross-sectional study. The sampling was conducted using an proportional sampling technique based on the distribution of Pharmacy Schools (PTF) in all the provinces in Indonesia. The level of readiness of these pharmacy students was measured using a questionnaire that consisted of four domains. The questions were scored according to the characteristics of the questions (negative or positive). The results of this study showed that 1884 respondents participated in this study. The basic characteristics showed that 89.1% participants were private pharmacy schools and 84.4% of them were female respondents. The mean of each domains of SDLR for self-management, the desire to learn, the emotional competency, and the responsible decision-making was 3.24 ± 2.65 , 3.37 ± 2.09 , 3.04 ± 1.87 , 3.16 ± 2.16 , respectively. Based on gender, the difference of mean in sub domain was $p=0.000$ (need for learning), $p=0.002$ (hope for outcome), and $p=0.000$ (identifying problem). In conclusion, the Self-Directed Learning Readiness (SDLR) among pharmacy students in Indonesia is quite high during the pandemic with a score above 3 (scale 1-4).

Keywords: online learning; pharmacy students; self-directed learning readiness (SDLR)

INTRODUCTION

Author aims

Author

The mean of each domains of SDLR for self-management, the desire to learn, the emotional competency, and the responsible decision-making was 3.24..... (and so on), respectively.

CEKLIST

Judul Artikel		Level of Self-Directed Learning Readiness (SDLR) in Online Learning among Pharmacy Students in Indonesia		
Kode Artikel	Tanggal Kirim	Tanggal Review		
No	Aspek Teknik JMPF	Kedua		
		Sudah Baik	Perlu Diperbaiki	Perlu Ditambahkan
JUDUL DAN PENULIS				
1	Panjang maksimal 15 kata, dua bahasa	✓		
2	Tidak ada kata klise	✓		
3	Penulis tanpa gelar, nama belakang tidak disingkat			
4	Lembaga asal, alamat korespondensi penulis utama			
ABSTRAK				
1	Ditulis 1 paragraf, panjang 200-250 kata	✓		
2	Tujuan, metode, hasil penelitian		✓	
3	Kata kunci: 3-5 kata		✓	
PENDAHULUAN				
1	State of the art		✓	
2	Statement of gap		✓	
3	Tujuan penelitian yang mengisi gap yang telah dikemukakan		✓	
METODE				
1	Rancangan penelitian		✓	
2	Populasi dan pengumpulan data (teknik sampling)	✓		
3	Ukuran sampel representatif		✓	
4	Kriteria inklusi dan eksklusi		✓	
5	Teknik analisis data			
6	Ethical Clearance			
HASIL DAN PEMBAHASAN				
1	Penulisan nomor dan judul tabel		✓	
2	Penulisan nomor dan judul gambar			
3	Setiap tabel/gambar dirujuk pada teks		✓	
4	Komparasi dengan penelitian lain pada setiap data yang ditampilkan			✓
5	Teori yang relevan terkait data yang ada			✓
KESIMPULAN				
1	Tanpa numbering, 1 paragraf	✓		
2	Menjawab tujuan penelitian, singkat padat dan jelas		✓	
DAFTAR PUSTAKA				
1	Kesesuaian daftar pustaka dengan teks	✓		
2	Minimal 80% berupa rujukan primer	✓		
3	Sumber pustaka baru, maksimal 10 tahun terakhir	✓		
4	Disusun menggunakan Mendeley	✓

2	The mean of each domains of SDLR for self-management, the desire to learn, the emotional competency, and the responsible decision-making was 3.24, 3.24, 3.24, and 3.24, respectively.	Thank you for the suggestions Author revised the sentence based on the reviewer's suggestion

3	Keywords in alphabetic using semicolon	Thank you for your suggestion The keyword is revised based on alphabetic
4	added literature about SDLR indonesia	Thank you for your suggestion Authors have been added about SDLR in Indonesia. In Indonesia, there are many study about SDLR during pandemic. One of them is study that conducted in faculty of medicine in Sam Ratulangi University. It is showed that total of 109 students (89.87%) had high SDLR score, 44 students (28.2%) had moderate score, and three students (1.92%) had low score ¹⁰ . Another study about SDLR in Yogyakarta showed that a very weak negative relationship between learners' resilience and their grades ¹¹
5	Added the explanation of score	Thank you for your suggestion The explanation of scoring using Likert was added.
6	the title of table was written following the rules, font size, sz 10, single spacing	Thank you for your correction The title of table is revised following the rules, font, size 10
7	So, what is exactly the number of respondents in this study? because in method and material, it is written that 1100 students were involved as the sample.	Thank you for your attention 1100 is our minimum sample size calculation Our respondents are 1654
