BAB I

PENDAHULUAN

A. Latar Belakang

Ibadah haji dan umroh merupakan perjalanan suci yang memiliki makna mendalam bagi umat Islam. PT Amansa, sebagai penyedia jasa tours and travel khusus haji dan umroh, menyadari pentingnya kehadiran digital untuk menyebarkan informasi dan menjangkau calon jamaah di era modern ini.

Saat ini, PT Amansa sudah aktif berinteraksi dengan calon jamaah melalui media sosial. Media sosial memang sangat efektif untuk membangun hubungan dan berbagi informasi sehari-hari dengan cepat. Namun, untuk benar-benar memberikan pengalaman yang lengkap dan lebih profesional, memiliki website resmi adalah langkah yang sangat penting.

Sebuah website tidak hanya akan menjadi sumber informasi yang lebih terstruktur, tetapi juga bisa menjadi pusat kepercayaan bagi calon jamaah. Di sana, PT Amansa bisa menampilkan semua informasi tentang paket perjalanan, jadwal, biaya, dan panduan ibadah haji dan umroh dengan jelas dan mudah diakses kapan saja. Calon jamaah juga akan merasa lebih tenang karena mereka bisa menemukan semua detail yang mereka butuhkan dalam satu tempat.

Selain itu, website memungkinkan adanya saluran komunikasi yang lebih personal dan langsung, seperti fitur chat atau formulir kontak, sehingga calon jamaah bisa bertanya langsung jika ada hal-hal yang kurang jelas. Ini juga memberikan kesan bahwa PT Amansa siap melayani dan mendukung jamaah kapan pun mereka membutuhkan.

Memiliki website akan melengkapi strategi digital PT Amansa, memberikan kesan profesionalisme yang lebih kuat, sekaligus memperluas jangkauan perusahaan di dunia online. Dengan website, PT Amansa bisa lebih mudah menjangkau lebih banyak orang, memberikan informasi yang lebih lengkap, dan membangun kepercayaan yang lebih dalam dengan calon jamaah. Ini adalah langkah penting untuk terus berkembang dan memenuhi kebutuhan calon jamaah di era digital yang semakin maju.

BAB IV

PENUTUP

A. Kesimpulan

Proyek pembuatan website dengan sistem manajemen informasi paket untuk perusahaan tours travel haji dan umroh berhasil mencapai tujuan utama yaitu menyediakan platform yang efektif dan user-friendly untuk mengelola dan menyampaikan informasi paket kepada pelanggan. Dari hasil pengujian *Black Box Testing* disimpulkan bahwa fitur-fitur pada website tersebut berjalan dengan baik dan hasil pengujian *System Usability Scale* mendapatkan nilai akhir 78 yang berarti sistem layak untuk digunakan namun perlu beberapa perbaikan untuk menambah kenyamanan dan kemudahan bagi pengguna. Website ini terdiri dari halaman beranda, tentang kami, informasi paket umroh dan haji galeri yang masing-masing dirancang dengan mempertimbangkan prinsip desain responsif, navigasi intuitif, serta aksesibilitas yang baik. Desain visual yang konsisten dan menarik telah diterapkan untuk memastikan pengalaman pengguna yang positif.

Pada halaman beranda, pengguna diberikan kesan pertama yang kuat dengan elemen visual menarik dan navigasi yang mudah. Halaman tentang kami menyediakan informasi yang lengkap dan jelas mengenai perusahaan, yang membantu dalam membangun kepercayaan dengan pengguna. Halaman informasi paket umroh dan haji yang menampilkan berbagai paket yang ditawarkan dengan cara yang terstruktur dan mudah dipahami, sementara halaman galeri menyediakan tampilan visual yang menarik dari berbagai media yang relevan dengan layanan yang ditawarkan.

B. Saran

Untuk meningkatkan efektivitas website manajemen informasi paket, disarankan untuk terus mengoptimalkan desain responsif dan navigasi intuitif guna memastikan kenyamanan pengguna di berbagai perangkat. Penambahan fitur interaktif seperti kalkulator biaya perjalanan dan formulir pendaftaran online dapat meningkatkan keterlibatan pengguna. Selain itu, memperbarui konten secara berkala dengan informasi terbaru dan testimoni pelanggan dapat membantu membangun kepercayaan dan menarik lebih banyak pengguna.
