## SCOPE

Publication of the journal started in 1974. Its original name was "KKU Engineering Journal". English and Thai manuscripts were accepted. The journal was originally aimed at publishing research that was conducted and implemented in the northeast of Thailand. It is regarded a national journal and has been indexed in the Thai-journal Citation Index (TCI) database since 2004. The journal now accepts only English language manuscripts and became open-access in 2015 to attract more international readers. It was renamed Engineering and Applied [Science Research](#) in 2017. The editorial team agreed to publish more international papers, therefore, the new journal title is more appropriate. The journal focuses on research in the field of engineering that not only presents highly original ideas and advanced technology, but also are practical applications of appropriate technology.

Dear sir

Is this journal scopus or not. till 2022 in scopus. but 2023???

reply

**Melanie Ortiz** 1 year ago

Dear Parag, thank you very much for your comment. We suggest you consult the Scopus database directly. Keep in mind that the SJR is a static image (the update is made one time per year) of a database (Scopus) which is changing every day.

The Scopus' update list can also be consulted here:

Dear Ramesha,  
thank you for contacting us.

We are sorry to tell you that SCImago Journal & Country Rank is not a journal. SJR is a portal with scientometric indicators of journals indexed in Elsevier/Scopus. We suggest you consult the Scopus database directly to see the current index status. Keep in mind that the SJR is a static image (the update is made one time per year, next one throughout June 2020) of a database (Scopus) which is changing every day.

Best Regards, SCImago Team
