Dear Dr. Fadillah:

Manuscript ID GCH-21-0086 entitled "Introduction of Computational Communication" by Zhang Lun, Wang Chengjun, Xu Xiaoke" which you submitted to Global Media and China, has been reviewed.

The editor(s) have recommended publication, but also suggest some revisions to your manuscript. Therefore, I invite you to be more focused, and especially writing something on unique ideas and general characteristics.

In addition, we noticed that you have submitted an original article and a **book review** at the same time. The revision suggestions for the two are different. Please pay attention to the distinction.

To revise your manuscript, log into <https://mc.manuscriptcentral.com/gmac> and enter your Author Center, where you will find your manuscript title listed under "Manuscripts with Decisions." Under "Actions," click on "Create a Revision." Your manuscript number has been appended to denote a revision.

You may also click the below link to start the revision process (or continue the process if you have already started your revision) for your manuscript. If you use the below link you will not be required to login to ScholarOne Manuscripts.

*** PLEASE NOTE: This is a two-step process. After clicking on the link, you will be directed to a webpage to confirm. ***

Please also highlight the changes to your manuscript within the document by using the track changes mode in MS Word or by using bold or colored text.

Once the revised manuscript is prepared, you can upload it and submit it through your Author Center.

When submitting your revised manuscript, you will be able to respond to the comments made by the reviewer(s) in the space provided. You can use this space to document any changes you make to the original manuscript. In order to expedite the processing of the revised manuscript, please be as specific as possible in your response to the reviewer(s).

IMPORTANT: Your original files are available to you when you upload your revised manuscript. Please delete any redundant files before completing the submission.

Because we are trying to facilitate timely publication of manuscripts submitted to Global Media and China, your revised manuscript should be uploaded as soon as possible. If it is not possible for you to submit your revision in a reasonable amount of time, we may have to consider your paper as a new submission.

Once again, thank you for submitting your manuscript to Global Media and China and I look forward to receiving your revision.

Sincerely,
Dr. Jie Gu

Dear Dani Fadillah,

Thank you for your submission. The editors think the book review is ok now and it can be accepted. As a tradition of GMAC, we won't accept it now in the system but will accept it before when it is published. According to our current publishing schedule, your book review will probably be arranged for next June. We will accept it in the system in due course (around April).

Please keep in touch.

with best wishes,

Ren
