Oktira Roka Aji, Karomah Indah Fitria, Iis Nisya Nur Aisyah:

We have reached a decision regarding your submission to Indonesian Journal of Applied Research (IJAR), "Isolation and Antagonistic Activity of Actinomycetes Associated With Strawberry Plants (*Fragaria X Ananassa* Duch.) Against *Colletotrichum Acutatum* Simmonds".

Our decision is: Revisions Required

Please revise your manuscript according to the comments from reviewers. We will give you 2 weeks to revise your manuscript. Highlight yellow in the section you are revising and fill file "Changes made of manuscript" for reviewers that we sent to you. Submit manuscript revisions and comment files from reviewers to your OJS account. We remind you when submitting a revision file and reviewer comments, not by opening a new account/new submission, because it will be processed from the beginning again. Do not hesitate to contact me if you have any questions regarding your manuscript.

<p>Dear authors,</p> <p>We remind the authors to revise their manuscripts and resubmit the revision into the journal system. Thank You.</p> <p>Regards,</p> <p>Editors</p>	<p>mardiah</p> <p>2024-09-28 03:12 AM</p>
<p>Dear Editor of Indonesian Journal of Applied Research (IJAR),</p> <p>We hope this message finds you well.</p> <p>We are pleased to inform you that we have completed the revisions to our manuscript titled "Isolation and Antagonistic Activity of Actinomycetes Associated With Strawberry Plants (<i>Fragaria X ananassa</i> Duch.) Against <i>Colletotrichum Acutatum</i> Simmonds," in accordance with the suggestions provided by Reviewer A and Reviewer B.</p> <p>We have carefully addressed all comments and made the necessary adjustments throughout the manuscript. Below are some of the key revisions made:</p> <ol style="list-style-type: none"><li>1. We have revised the keywords to remove the Latin name of strawberry and replaced any abbreviations or unclear codes.</li><li>2. In the abstract, we have ensured the use of past tense and included a brief mention of the research method while reducing background information.</li><li>3. Additional references related to the inhibition of <i>Colletotrichum acutatum</i> by Actinomycetes in other plants and efforts to prevent anthracnose in strawberry have been incorporated into the introduction section.</li><li>4. The methodology has been updated with details on equipment and materials used. We have also revised citations to follow the proper format, in English, and managed them using Mendeley.</li><li>5. In the Results and Discussion section, explanations have been added to clarify the codes used in the figures and tables, and narrative sentences now link the results to the discussion to improve readability.</li><li>6. Abbreviations and unclear codes have been removed from the conclusion, and we have ensured that past tense is used throughout.</li></ol> <p>We have attached the revised manuscript for your consideration. We hope that these changes meet the expectations of the reviewers and are eager to hear your feedback.</p> <p>Thank you for your time and support.</p> <p>Best regards,</p> <p>Oktira R.A.</p>	<p>oktira123</p> <p>2024-10-02 04:39 AM</p>
